Question:

With reference to Entergy's response to AECC 2-4e, based on the description Entergy provided for the expense category "SPO OIT Decommissioning", please provide the justification for recording these expenses to FERC Account 566 – Miscellaneous Transmission Expenses rather than to FERC Account 557 – Other Expenses, or other non-transmission O&M account.

Response:

Upon further review, the total costs of $5,030 charged for SPO OIT Decommissioning to account 566 should have been charged to an A&G account.
