Filed: 01/22/2016

Question No.: AECC 1-3 Part No.: Addendum:

Question:

Refer to EAI'S 2014 FERC Form 1 page 207, line 52, Account 355 – Poles and Fixtures, please explain and provide supporting documentation for the increase of approximately $35.8 million, or 11%, above the 2013 balance.

Response:

The increase in account 355 is a result of various projects throughout the year namely the Mayflower substation restoration ($10.3M), Keo substation restoration ($8.5M), Batesville to Norfolk line upgrade ($5M), and the new lines and rebuild lines at the Bagby substation ($6.6M). See the attached spreadsheet for activity in 2014.
