Question No.: AECC 1-4 Part No.: Addendum:

Question:

Refer to EAI'S 2014 FERC Form 1 page 207, line 53, Account 356 – Overhead Conductors and Devices, please explain and provide supporting documentation for the increase of approximately $14.4 million, or 4%, above the 2013 balance.

Response:

The increase in account 356 is primarily due to multiple projects including: Batesville-Norfolk line upgrade ($4.2M), rebuild of the Woodward to Lake Village Bagby line ($1.5M), Mayflower restoration ($1M), and the sky lining/LIDAR efforts ($3.8M). See the attached spreadsheet for activity in 2014.
