ENTERGY SERVICES, INC.
FEDERAL ENERGY REGULATORY COMMISSION
2015 Attachment O Annual Rate Update

Response of: Entergy Services, Inc.
to the First Set of Data Requests
of Requesting Party: Arkansas Electric
Cooperative Corporation

Filed: 01/22/2016

Question No.: AECC 1-2 Part No.: Addendum:

Question:

Refer to EAI'S 2014 FERC Form 1 page 207, line 50, Account 353 – Station Equipment, please explain and provide supporting documentation for the increase of approximately $37.0 million, or 6%, above the 2013 balance.

Response:

The increase in account 353 is primarily due to substation restorations. The two noteworthy substations are the Mayflower ($12.2M) and Keo ($2.3M). The restorations were needed to repair damage caused by a tornado and fire, respectively. Also, in 2014, the Camden North Substation rebuild project completed closing roughly $5M to plant in service. Entergy Arkansas also purchased multiple spare assets for various locations totaling approximately $6.2M. See the attached details for activity in 2014.
