Customer: **PGE Merchant**

Subject:: **Relationship of TTC Values**

Question:

We were looking at your OASIS Posted Paths diagram on your OASIS and have a question.

PGE Transmission has posted TTC for the following paths in these amounts:

- PACW - PGE 1000 MW
- BPAT - PGE 4000 MW
- PGE - PGE 5100 MW

Are these amounts exclusive or inclusive of one another? For instance, if I reserve 100 MW of BPAT-PGE, does this decrement both the 4000 MW of BPAT-PGE as well as the 5100 MW of PGE-PGE?

Answer:

The amounts on these paths are exclusive of each other. If you reserve 100 MW of the BPAT-PGE path it does not decrement ATC on the other paths.
