

**On-system Network/Native Load Resource Designation**

Customer should fill out Section 1, Section 2 or Section 3, Section 4 and Section 5 for On-System Resources or Contracts

<b>SECTION 1: CUSTOMER INFORMATION</b>	
<b>Network/Native Load Customer</b>	
Represented By (if applicable)	
Person Submitting Application	
Submitter's Address	
Submitter's Phone	
Submitter's e-mail	
Submitter's FAX	

<b>SECTION 2: GENERATION RESOURCE INFORMATION</b>						
	Unit 1	Unit 2	Unit 3	Unit 4	Unit 5	Unit 6*
Resource Name						
Unit Size (MWs)						
Designated Capacity (MWs)						
Start date (mm/dd/yyyy)						
Stop date (mm/dd/yyyy)						
Max VAR Output						
Max VAR consumption						
Restricted Operations Periods (masked in postings)						
Maintenance Schedules (masked in postings)						
Minimum Loading Level (MWs) (masked in postings)						
Normal Operating Level (MWs) (masked in postings)						
System Reliability/Contractual Must-Run Unit Designations (periods of time and/or MWs) (masked in postings)						
Approximate Variable Cost for Redispatch Computations (\$/MWh) (masked in postings)						

This document will be modified from time-to-time as the various issues surrounding Order 890 implementation are addressed. Questions and or comments can be directed to Kenny Dillon at 509-495-4436 or [kenny.dillon@avistacorp.com](mailto:kenny.dillon@avistacorp.com).  
8/7/2009

\*Customer is free to add or remove unit columns as needed. Wind projects should report entire output under Unit 1

## On-system Network/Native Load Resource Designation

Customer should fill out Section 1, Section 2 or Section 3, Section 4 and Section 5 for On-System Resources or Contracts

<b>SECTION 3: CONTRACT RESOURCE INFORMATION</b>	
Contract Resource Name	
Designated Capacity (MWs)	
Start date (mm/dd/yyyy)	
Stop date (mm/dd/yyyy)	
Restricted Operations Periods (masked in postings)	
Maintenance Schedules (masked in postings)	
Minimum Loading Level (MWs) (masked in postings)	
Normal Operating Level (MWs) (masked in postings)	
System Reliability/Contractual Must-Run Unit Designations (periods of time and/or MWs) (masked in postings)	
Approximate Variable Cost for Redispatch Computations (\$/MWh) (masked in postings)	

<b>SECTION 4: TRANSMISSION ARRANGEMENTS</b>	
Arrangements for sale and delivery of third party Network Resources when not all of the capacity is dedicated as a Network Resource	
AVAT OASIS A_Ref	

<b>SECTION 5: ATTESTATION AND DECLARATIONS</b>	
Attestation attached (yes or no)	
Comments	

FAX to AVAT at 509-777-9502 or email to [transmission.services@avistacorp.com](mailto:transmission.services@avistacorp.com)
