

THIRD PARTY CONGESTION RELIEF

To date, Avista has received no requests from any third parties to offer to relieve congestion on a specific transmission facility or path, per 18 CFR §37.6(h)(4)(j)(1). Once such offer is received, the offer will be posted on OASIS per 18 CFR §37.6(h)(4)(j)(1) and this page will be updated.

Prior to the final standard approval by NAESB and development of the proper OATI functionality, offers for congestion relief (bids/offers) by third parties may be posted to the Common Western Energy Bulletin Board feature on the Avista OASIS. The Bulletin Board can be accessed via the **Bulletin** link on the tool bar located at the top of the Avista OASIS page. Please include in the comments field the specific path or facilities the offer is intending to relieve. Customers may also email additional information to transmission.services@avistacorp.com.

To be updated from time to time or when an offer is received. Questions or comments can be directed to transmission.services@avistacorp.com
