

# CAROLINA POWER & LIGHT COMPANY

## Instructions for Posting a Resale Offer

Carolina Power & Light Company (CP&L) d/b/a Progress Energy Carolinas is providing the following information to customers that may desire to post offers for resale on the CP&L OASIS. All Customers should carefully follow these instructions when making an offer.

As stated by FERC CFR 37.6(c)(5): Customers choosing to use the OASIS to offer for resale transmission capacity they have purchased must post relevant information to the same OASIS as used by the Transmission Provider from whom the Reseller purchased the transmission capacity. This information must be posted on the same display page, using the same tables, as similar capability being sold by the Transmission Provider, and the information must be contained in the same downloadable files as the Transmission Provider's own available capability.

FERC has established in Order 890 (1) that all Resale offers must be posted on OASIS before the commencement date of the reassignment, (2) the Assignee must execute the new Reassignment Service Agreement included as Attachment A-1 in the CP&L OATT, and (3) only Point-To-Point reservations can be reassigned.

### Instructions for creating an offer for resale:

1. Log onto the CP&L OASIS using an OATI digital certificate
2. In the menu bar at the top of the page, click on "Offerings"
3. Click on "New Postings"
4. Enter data for service offered for sale; identify customer and contract information in the "Seller Comments" area
5. Click on the "Submit" button
6. Contact the Transmission Services Operator at (919) 546-2144 and advise of the posting.

Once the reassignment details have been finalized, article I-E1 of the CP&L Business Practices directs the agreeing parties to submit the Reassignment Service Agreement no later than 5 business days before service change. The Reassignment Agreement should be faxed to the CP&L Transmission Services desk at (919) 546-3466.

Posting date = August 14, 2008
