Re: Entergy Services, Inc.; Docket No. ER05-1065-000  
Report of AFC-Related Errors

Dear Secretary Bose:

Pursuant to the Federal Energy Regulatory Commission's ("Commission") April 24, 2006 Order in *Entergy Services, Inc.*, 115 FERC ¶ 61,095 (2006) ("April 24 Order"), Entergy Services, Inc., acting as agent for the Entergy Operating Companies,<sup>1</sup> hereby notifies the Commission it has recently become aware of the following AFC-related error.

In the April 24 Order, the Commission conditionally accepted Entergy's proposal to establish an Independent Coordinator of Transmission ("ICT") for the Entergy System. As the Commission is aware, the Southwest Power Pool, Inc. acts as Entergy's ICT. In the April 24 Order, the Commission imposed an obligation for Entergy to "notify the Commission, the ICT and the Users Group within 15 days if Entergy discovers that it has lost data, or reported inaccurate data, or otherwise believes that it has mismanaged data." See April 24 Order at P 110. Accordingly, Entergy submits the following explanation of reporting inaccurate data.

---

<sup>1</sup> The Entergy Operating Companies include: Entergy Arkansas, Inc., Entergy Gulf States Louisiana, LLC, Entergy Louisiana, LLC, Entergy Mississippi, Inc., Entergy New Orleans, Inc., and Entergy Texas, Inc. The Entergy Operating Companies and Entergy Services, Inc. are referred to collectively herein as "Entergy."

Kimberly D. Bose, Secretary

### **Affiliate Flag**

On February 18, 2010, Entergy determined that an issue existed regarding the identification of certain affiliate transmission service requests (TSRs) on OASIS as transactions involving an Entergy affiliate. The review process identified certain types of transactions that may not have had the affiliate flag appropriately annotated on OASIS. It was determined that the issue related to transactions where a company acting as agent for an Entergy affiliate was not identified as such within the customer OASIS Certificate identification process utilized by OASIS to properly flag the request. Since September 28, 2009, the reservation and scheduling agent submitted 86 TSRs on behalf of a particular Entergy affiliate that were not annotated as affiliate transactions. At this time Entergy is implementing an interim process for properly setting the affiliate flag and is also developing a long term solution.

During the course of its investigation of the issue identified above, Entergy discovered that there existed the potential that other TSRs may have been submitted by a reservation and scheduling agent for other Entergy affiliates that may not have been appropriately annotated. Entergy continues to review the issue to ensure that the most appropriate resolution is implemented. This error did not impact the granting or denial of any transmission service requests.

In the event that further information is needed, please do not hesitate to contact the undersigned.

Respectfully submitted,  
/s/Gregory D. Pierce
