Re: Entergy Services, Inc.; Docket No. ER05-1065-000
Report of AFC-Related Errors

Dear Secretary Bose:

Pursuant to the Federal Energy Regulatory Commission's ("Commission") April 24, 2006 Order in *Entergy Services, Inc.*, 115 FERC ¶ 61,095 (2006) ("April 24 Order"), Entergy Services, Inc., acting as agent for the Entergy Operating Companies,¹ hereby notifies the Commission it has recently become aware of the following AFC-related error.

In the April 24 Order, the Commission conditionally accepted Entergy's proposal to establish an Independent Coordinator of Transmission ("ICT") for the Entergy System. As the Commission is aware, the Southwest Power Pool, Inc. acts as Entergy's ICT. In the April 24 Order, the Commission imposed an obligation for Entergy to "notify the Commission, the ICT and the Users Group within 15 days if Entergy discovers that it has lost data, or reported inaccurate data, or otherwise believes that it has mismanaged data." See April 24 Order at P 110. Accordingly, Entergy submits the following summary of mismanaged data.

¹ The Entergy Operating Companies include: Entergy Arkansas, Inc., Entergy Gulf States Louisiana, LLC, Entergy Louisiana, LLC, Entergy Mississippi, Inc., Entergy New Orleans, Inc., and Entergy Texas, Inc. The Entergy Operating Companies and Entergy Services, Inc. are referred to collectively herein as "Entergy."

Kimberly D. Bose, Secretary

Study Horizon Model

November 30, 2010, in preparation for implementing new definitions for Conway (CWAY) and West Memphis (WMU), the override function in webTrans was used to change transmission service requests (TSRs) beginning January 1, 2011, to reflect the new definitions. On December 1, 2010, Entergy discovered that the Study Horizon model uploaded with the new proxy flowgate definitions at approximately 7:39 PM November 30, 2010, reflected incorrect baseflow values for CWAY and WMU. The incorrect values resulted from the changes to TSRs being made after the data for the model was extracted from webTrans but before the development of the Study Horizon model was completed.

Entergy corrected the model to include the actual baseflow values and uploaded it on December 2, 2010. This potentially could have affected new reservations received from November 30, 2010 until December 2, 2010 that involved CWAY and WMU. The review of the service requests processed during this time showed that two reservations for service for NRG from Big Cajun 2 to WMU were confirmed when they should have been denied.

In the event that further information is needed, please do not hesitate to contact the undersigned.

Respectfully submitted,
/s/Gregory D. Pierce
