IID NOTICE OF STAKEHOLDER MEETING

AFFECTED SYSTEM STUDY
BACKFEED AND STATION SERVICE ISSUES

IID performed its first affected system cluster in an effort to accelerate the timing of the study process for developers seeking interconnection to the CAISO controlled grid. IID has previously advised all affected system developers that it is IID's goal to minimize and equitably allocate the costs of any necessary transmission system upgrades among multiple projects. The study process is complete and IID anticipates the study report will be made available prior to the meeting.

IID has also received numerous inquiries from developers regarding backfeed and station service for the various projects.

IID has scheduled a stakeholder meeting with affected system generators to address any developer questions regarding the study report and to announce its plans with respect to backfeed and station service. Meeting details:

Date: **Thursday, December 20, 2012**

Time: **1:00 p.m. – 3:30 p.m.**

Location: **IID Board Room, 1285 Broadway, El Centro, CA**

It is preferable that a project representative attend in person; however, for those who are unable to participate in person, a conference line has been established:

Call-in: **1 (800) 697-5978**

Passcode: **5156 325#**

Additional audio conference information is attached.

If you have any questions prior to the meeting, please feel free to contact Jamie Asbury at 760.482.3379 or jlasbury@iid.com.
