

Important Messages to our Customers

12/28/06 The rating of the Mead to Marketplace 500kV Transmission Line will be increased from 1852 MW to 2600 MW beginning February 1, 2007. Please check our OASIS on January 18, 2007 to view the DWP share of the TTC increase on the line.

11/8/06 Mona to Gonder and all NOB N/S paths are discounted to \$2000/MW-month for December 2006.

11/3/06 We will accept discount bids on NOB and other paths for the month of November and December 2006.

11/2/06 LDWP offers to combine 75 MW of Q2 Malin500 N/S capacity with the NOB N/S Q1 capacity and sell as a "combo." We are accepting bids from customers now. Transmission will be evaluated based on highest value to the Department.

10/23/06 LDWP will be adding Moenkopi500 as a POR/POD. Please check our OASIS ATC postings in a couple of weeks.

10/5/06 ATC for the Northern Transmission System has been updated.

9/20/06 ATC problem earlier today has been corrected.

9/5/06 CAISO will merge DEVERS500 and NRTHGILA500 into a new point PVWEST on 9/28/06 (preschedule date 9/27/06). For customers who use paths from and to Paloverde500, please change your tag templates. All reference of DEVERS500 must be changed to PVWEST on the tags. Please do not send in reservations spanning across the implementation date.

7/24/06 Interconnection queue and Long-term transmission queue are updated.

7/12/06 Transmission Credit Policy is available under Business Practices.

7/3/06 LADWP will be implementing the Standards of Conduct in phrases. Please review our recent postings of business practices, Standards of Conduct Implementation document, and Generation Interconnection procedure. Credit Policy will be posted next week.

6/30/06 Please submit a request type of RELEASE to cancel or modify your Secondary REDIRECT.

5/5/06 CAISO has proposed to merge DEVERS500 and NRTHGILA500 into a new point PVWEST. Additional information will be posted when CAISO informs us of a west-wide implementation date.

4/11/06 Please logon to view postings of outages.

3/29/06 On Sunday, 4/2/06, there will be a 30 minute interruption of the DWP's Internet connection beginning at 5:30 PM PS. This may affect the correct postings of TTCs, ATCs, or your ability to request for transmission services. We apologize for any inconveniences this may cause. (note: This was actually cancelled on 3/30/06 but did not post on homepage).

3/23/2006 we have re-arranged our folders to conform to the Westtrans standards.

9/21/05 9:15 AM 50MW of NOB from November 2005 through June 2006 is SOLD this morning. Only 20MW is available for 2006 from COB.

9/20/05 50MW is available from November 2005 through June 2006 from NOB. 20MW is available for 2006 from COB.

9/12/05 ATC has been updated through Q2, 2007 for COB, NOB and many other paths.

6/15/05 The error in the Sylmar to PV posting has been corrected. ATC is available with POD of PaloVerde.

4/7/05 Beginning 6/2/03, schedules submitted by LADWP on behalf of the OASIS customers to CAISO in the hour-ahead market must adhere to the CAISO's scheduling protocol, i.e. for paths involving COI and PV, this is 2 1/2 hours in advance

3/28/05 Northern Transmission System TTC updated for Summer 2005.

1/26/05 50MW of Q2 NOB has been sold.

1/25/05 new ATC posted for Q2 NOB 50MW. Additional 130MW available Feb and Mar on NOB. 150MW available on COI for March 2005.

1/4/05 COI N/S Q2, Q3, and Q4 2005 are all sold. Only Q1 is still available.

12/16/04 Please refer to our 10/9 posting (below) for redirect. LADWP is unable to offer firm redirect at this time.

10/13/04 NOB N/S bound ATC has been all sold for Q2 and Q3 2005. Only COB (Malin500) N/S is available.

10/9/04

- ATC has been updated for 2005 for all paths.
- Starting from 10/1/04, we will no longer provide curtailment credits for firm services. Monthly firm transmission service can redirect to hourly secondary non-firm (NERC priority 1) to any POR and/or POD where ATC is available.

9/30/04

- ATC is updated for Q4, 2004 and Q1, 2005 on COI N/S.
- Starting from 10/1/04, we will no longer provide curtailment credits for firm services.
- Monthly firm transmission service can redirect to hourly secondary non-firm (NERC priority 1) to any POR and/or POD where ATC is available. Questions? Call Sueyen McMahon (818) 771-6778.

3/31/04

- Please submit only pre-confirmed reservations for requests starting within 2 hours.
- Please submit hourly requests at least 60 minutes before the next operating hour. This includes secondary redirect requests. Hourly reservations submitted less than 60 minutes in advance will be processed if time allows, and at the discretion of the Operator.
- Requests involving COI and Palo Verde must adhere to the CAISO scheduling deadline.
- Before submitting your reservations, please call to make sure a scheduling account exists for your company for the path and service that you are purchasing.

10/15/03 Please submit only pre-confirmed reservations for same-day requests. Please call to make sure a scheduling account exists for your company for the path and service that you are purchasing.

6/3/03 Beginning 6/2/03, schedules submitted by LADWP on behalf of the OASIS customers to CAISO in the hour-ahead market must adhere to the CAISO's scheduling protocol.

08/01/02 Customers are required to sign the service agreements (Attachments A and B of the LDWP tariff) to purchase transmission.

Please call Sueyen McMahon (818) 771-6778 for all short-term transmission service of less than 12 months.

Please call Son Hoang (213) 367-0231 for long-term transmission service of more than one year.
