

Rules, standards and practices, related to the terms and conditions of transmission service; not subject to a North American Energy Standards Board copyright restriction; and not otherwise in the OATT.

OVEC does not currently have any rules, standards or practices relating to the terms and conditions of transmission service other than those included in its Tariff. To the extent OVEC plans to add, delete or otherwise modify any such rules, standards or practices, OVEC will first post such addition, deletion or other modification on OASIS and its public website (or provide a link to copyright protected materials) at least 30 days (if reasonably practicable and within OVEC's control) prior to their effectiveness.
