

As of 03/08/05 all Non-Firm Network Secondary, Non-Firm Redirect, and Firm Redirect transmission requests' Bid Price and Offer Price MUST have a ZERO value entered on the TSR (transmission service request/reservation). If the TSR has a price other than Zero, the TSR shall be Countered at a ZERO price, and the customer will have to Rebid at a ZERO price. If the final price isn't Zero, then the TSR will be DENIED. This requirement is due to the billing process in the OATI tool. It is important to communicate with our customers of this new requirement. Please work together to get this requirement accomplished.
Thanks You for Your Cooperation
