Capacity Benefit Margin Implementation Document (ATCID)

Ref: MOD-004-1, NERC Adopted 11/13/08, FERC Approved 11/24/2009

1. Purpose:

The Capacity Benefit Margin Implementation Document (CBMID) provides the documentation of PRPA's Capacity Benefit Margin component (CBM) for the calculation of Available Transfer Capability (ATC).

2. Definitions:

2.1. There are no terms specific to PRPA used in this document, refer to the applicable NERC MOD standards and Glossary of Terms for terminology definitions.

3. Implementation:

3.1. PRPA does not maintain a CBM and does not use CBM in the calculation of ATC in any timing horizon.

3.2. CBM will not appear in any calculation regarding Firm ATC in any time horizon.

3.3. CBM_s will not appear in any calculation regarding Non-Firm ATC in any time horizon.
