Viewing System Data

The individual TTC, TRM, and CBM components for a given POR/POD combination can be viewed on the PSCo WebOASIS. From the PSCo WebOASIS Home page select the blue Sys Data button at the top of the page, enter the filter information for the specific POR/POD combination and timeframe you are interested in and press the Enter key.

To view the available ATC for a given path, select the blue Offerings button at the top of the screen, complete the various filter information for the type of service, period and POR/POD combination you are interested in. Press the Enter button.
