Rocky Mountain Power Pool Training Exercises—2009

Conf Bridge=720-962-7661 Pass code 110404

Energy Emergency, Low Reserve and System Restoration-Black
Start Drills/Exercises

When: Each Wednesday in November (4, 18,25) except second week when on Tuesday (11/10) to avoid Veteran's Day and first Wednesday in December 2 (5 sessions)

Where: At Participant's own site—drill conducted via above phone bridge.

Purpose: To meet requirements of all applicable NERC Standards with regard to annual operator training and exercises for system restoration, low reserve and emergency energy situations. Training to reinforce the concept that restoring the integrity of the Interconnection transmission system is of the highest priority. Training to allow each Member to verify its restoration procedures and be trained on the functions to be coordinated with the Reliability Coordinators and neighboring Transmission Operators. As practical, Member's may also be testing their backup control centers and back up communication facilities during the course of conducting the exercises.

Program: _____

0800 - 0930 Energy/Reserve Deficiency Training and System Restoration(in-house)

10 Minute Break

0940 - 1100 Energy/Reserve Deficiency Drills via conf.
bridge Volunteer to Facilitate

1100 - 1115 Energy/Reserve Deficiency drill De-brief—share lessons learned via conf. Bridge

1115- 1130 Exam

—3.5 CEHs for morning

1130- 1200 Lunch

1200 - 1230 System Restoration/Black Start Briefing/ Training cont'd(in-house) --

1230 - 1545 System Restoration/Black Start Drill via conf. bridge
Facilitated By Volunteers
