

Acts of Waiver Log

January 26, 2010

For three hours during the week of January 11, 2010, PSE tested the integration and functionality of intra-hour scheduling between the webTrader system and BPA. These test transactions were conducted in anticipation of the filing of amendments to PSE's OATT to accommodate intra-hour scheduling changes. Upon review of testing protocols, it has been determined that these transactions constituted waivers under PSE's OATT and therefore PSE is posting notice of the waivers pursuant to 18 CFR 358.7(i) at this time.
