

05/02/2008

On May 1, 2008, a PSE employee reported that a PSE merchant function employee was inadvertently receiving a report authored by PSE's reliability dispatchers. The report contains information regarding system clearances and events. The PSE merchant function employee was immediately removed from the distribution list and all previously distributed copies were destroyed. Please contact Tom DeBoer at tom.deboer@pse.com for any additional information.
