## Tucson Electric Power Company Business Practice Guidelines

### **Business Practice Guidelines**

**Effective: 3/17/08**

TEP will use the following procedures to add, delete, or modify Business Practices on its website.

New Business Practices or changes to existing Business Practices will be posted on the TEPC OASIS in draft form. TEPC will allow five business days for comments before the new Business Practice takes effect, unless it is in all transmission customers' best interest to expedite the updated business practice.

Comments received will be posted on the TEPC OASIS and will be taken into consideration when finalizing the Business Practice.

Comments regarding the Business Practice should be emailed to the attention of the Transmission Coordinator at [transcoord@tep.com](mailto:transcoord@tep.com).

**These Business Practices describe general conditions and practices. There may be specific circumstances that require some variation from or are not addressed by these Business Practices.**
