Re: Submittal of Attachments O and GG and Supporting Work Papers to the Midwest ISO

Dear Ms. Spence:

The accompanying Attachment O and Attachment GG (if applicable), along with any other supporting workpapers requested by the Midwest ISO submitted for the City of Mountain Lake (“Mountain Lake”) are based on the audited financial statements and underlying financial records for the electric utility for the year ended December 31, 2017. The expenses, assets, liabilities and proprietary capital data provided by Mountain Lake in the EIA Form 412, Attachment O, Attachment GG and supporting workpapers are consistent with the Uniform System of Accounts cited in the EIA Form 412 template (which Mountain Lake will continue to use so long as the Midwest ISO requires the EIA Form 412 template).

Allocations of expenses made in Mountain Lake’s financial statements are based on historical cost allocation reviews conducted by the electric utility staff. These cost allocations have been audited by certified professional accountants and are an accurate representation of the financial condition of the electric utility. Mountain Lake will notify the Midwest ISO in writing, explaining the new allocation methodology, before changing the methodology used to allocate these expenses in future financial statements and in its Attachment O, Attachment GG and supporting workpaper submittals to the Midwest ISO. Wendy Meyer confirms that Mountain Lake’s audited financial statements and workpapers submitted with the Attachment O and Attachment GG (where applicable) data will be publicly available for review and inspection.

Mountain Lake is not a jurisdictional utility under the Federal Power Act and Federal Energy Regulatory Commission regulations. Therefore, it does not file a Form 1 nor keep its books and records in accordance with the Uniform System of Accounts. However, the Central Minnesota Municipal Power Agency of which Mountain Lake is a member has completed an EIA Form 412 consistent with historical allocations and record keeping. Mountain Lake confirms that these allocations and categorizations of rate base balances and expense detail are reasonable and consistent with the intent of the Midwest ISO's Attachment O, EIA Form 412 templates and the Uniform System of Accounts.

Very truly yours,

Michael Schulte  
City Administrator/Clerk  
City of Mountain Lake  
Mountain Lake, Minnesota
