

SEAMS Service Transition from NDEX to TSAT

On April 19, 2012 the Midwest ISO complied with FERC's August 31, 2011 order, 136 FERC ¶ 61,152, by notifying the Commission that effective May 1, 2012 the Midwest ISO will no longer use the North Dakota Export ("NDEX") Operating Guide to manage congestion under Module F, Part II of its tariff. Seams Service Customers with facilities previously identified as NDEX facilities will coordinate with MISO using the TSAT tool as described in FERC's August 31, 2011 Order.
