

Planned Transmission Outage Report Notice (01/30/07)

Please be advised that as a result of the planned maintenance activity on Friday, January 26th, 2007 the XML portion of the "Planned Transmission Outage report" contained an extra blank line at the beginning of each file. As a result the files produced from 1/26/2007 10:30 pm EST – 1/30/07 12:00 pm EST were not recognized as XML files. A zip file containing all the corrected XML files from this period has been placed in the same location as the "Planned Transmission Outage report" on the OASIS site. The file name is "Corrected 2308 XML files from 012607 thru 013007.zip" and will be available for 7 days.

MISO regrets any inconvenience caused by this activity.
