

Timing Change for the creation of the Actual Load files

Beginning Nov 30th, 2010, Midwest ISO is advancing the posting times of the "ActualLoad_MMDDYYYY File" from 6:00 AM EST to 12:30 AM EST. Due to this change the report will be available earlier than the current posting time.

The report is can be found on the OASIS at the following location: MISO AFC (and ATC) Related postings and Reports link.

Please contact your Client Relations representative if you have any questions.
